Maintenance Supervisor Richard Lawson with maintenance updates-
Facilities and Projects Update

- Air Force One is scheduled to be on-site today to complete the boiler work and perform startup activities.
- A state representative for the BMV is scheduled to review the building tomorrow.
- Centennial Preservation has indicated that repairs to the terrace will likely not begin until spring.
- I will ensure water access is available on both sides of the courthouse due to the plants and planters located at the south end.
- The drain issue has been resolved. The line ran approximately 100 feet before encountering an obstruction and breaking through.
- At the rental property, we have only been out once, and the tenant has not reported any issues since that visit.
- At Lifeworks, the water issue remains a concern. Water accumulates in that area too quickly, and additional corrective measures will likely be necessary.
